

Dedication

Marianne Punham doesn't leave right at 3:45. She doesn't give worksheets then do nothing. She doesn't let her students stray like helpless sheep. If you want determination and someone who gives more than she should, Mrs. Punham is the person. A teacher at VSPB for seven years, she's always cheerful and comes in raring to go. She always encourages her students to exceed what others expect of them, just because she knows they can do it.

She gives her personal time to the students after school to catch up in history of some form. Or Mrs. Dunham is involved in Drama Club, working hard to make it go smoothly. She did an excellent job in Academic Bowl as a coach then as a coordinator. Mrs. Dunham is always thoughtful and very kind to others. That's why the 2006-2007 yearbook is dedicated to her. We hope you will enjoy this much deserved dedication, Mrs. Dunham!

Space Camp for Interested Visually Impaired Students

From September 23-29, 2006, science teacher Anne Knopp and principal Bob Whytal took three students, Ryan Mann, Noah Stelick, and Kierra Davis to Huntsville, Alabama to the U.S. Space and Rocket Center to attend SCIVIS, Space Camp for Interested Visually Impaired Students. The student had written essays in order to compete for scholarships last spring.

Mrs. Knopp spent most of her time with Kierra in Space Academy and Mr. Whytal was with Ryan and Noah in Aviation Challenge. Space Academy is all about astronaut training for young people. Activities include Space Shuttle missions, IMAX movies, training simulators, rocket building and launches, scientific experiments, and lectures on the past, present, and future of space exploration. Kierra took on a role in two missions on the space shuttle Endeavor; on the first she was a mission scientist, and the second she was the orbiter commander. Kierra did an excellent job as orbiter commander, and her team received an award for best mission!

The Aviation Challenge is a military-style flight training school, and as the week progressed, Ryan and Noah learned to rely on their teammates' skills and abilities to help them accomplish missions. In a new challenge course, "Area 51," Ryan volunteered to be first to climb the 32-foot pole and leap into midair, supported by a harness and held by ropes his teammates grasped on the ground below. At the climbing wall, he and his partner "Z", climbed first. Both Ryan and Noah also participated in a night mission in which they crawled through the woods, trying to reach safety by evading the guards. They spent much time also on simulators, and Ryan and his wingman won the Top Gun award for excellence on their final mission competition. Homer Hickam, the author of Rocket Boys, the book that was made into the movie October Sky, spoke at Thursday night's graduation.

Tammi Shook

To the Class of 2007...

Some don'ts as you leave VSDB: Don't wait for time, make it. Don't wait for love, feel it. Don't wait for money, earn it. Don't wait for the path, find it. Don't wait for opportunity, create it. Don't go for less, get the best. Don't compare, be unique. Don't fight your misfortune, transform it. Don't avoid failure, use it. Don't dwell on mistakes, learn from them. Don't back down, go around. Don't close your eyes, open your mind. Don't run from life, embrace it.

Don't be afraid to take risks and experience pain to achieve your dreams.

Always remember, if you want a rainbow, you must first go through the rain. (Carry a big umbrella!)

Congratulations to all of you on your graduation. We will miss you!

Wishing you the best of everything, Mrs. Dunham
